

## Rate and Research Your Best Prospects

### Your Challenge

Do you know what organizations your prospects are giving their money to? And how much? Do you know who they're connected to? A complete picture of your prospects helps you develop long-term relationships with them, make informed asks, and succeed in your fundraising efforts. **DONORSCAPE CAPACITY** helps you tap into constituent's philanthropic priorities to develop these relationships to their fullest potential.

### Our Solution

Building on the sophisticated identification and rating capabilities of **DONORSCAPE IDENTIFICATION**, **DONORSCAPE CAPACITY** completes the screening process by providing detailed wealth and affiliation information on individual constituents.

**DONORSCAPE CAPACITY** is the most comprehensive hard-asset research tool available for providing detailed information on individual prospects and is the first completely Web-based screening product on the market.

Searching 12 of the best known and most respected data resources, **DONORSCAPE CAPACITY** provides organizations with up to 500 data points of detailed information on the wealth, affiliations, and capacity to give of an individual constituent, allowing you to research and qualify individual prospects with confidence.

**DONORSCAPE CAPACITY** is the most flexible screening tool on the market. You can choose which matches to view (including Exact, Near, Possible, or Simple), and receive updated information on a weekly basis. With **DONORSCAPE CAPACITY**, you get the most information available delivered according to your preferences.

### Our Experience

**DONORSCAPE** prospect screening services, developed by Grenzebach Glier & Associates, combines GG&A's expertise in non-profit fundraising with reliable and extensive data sources. GG&A's understanding of development and our access to critical data lets us deliver the most comprehensive information in an easy-to-use manner. Instead of losing time learning a complicated database, your staff can easily and instantly access all of your prospect data in our Web-based application; creating reports, queries, and direct mailings immediately.
